

## Taxes Auto Calculated

CDA Software v.10 now offers you the ability to enable automatic tax calculations down to the address level. This amazing feature is an absolutely time saver for most businesses. And the best part about it, is that it's enabled for free for all your agents. There is no additional cost to use this feature.

Allowing you to get a tax rate based upon the address not only eliminates the tedious Google searching and second guessing, but it means you provide a more accurate report of your tax collection.

Tax rates are maintain in real-time, and if that address is unknown, we fall back to the zip code of that claim. If you're still managing your tax rates with a lookup table, it's time for you to upgrade to CDA Software v.10 today.

### Highlights

- Accurate sales tax rates & calculations at the state, county, city and special taxing district level.
- Tax rate is calculated by the address of the claim, with fallback to the zip code.
- Selects whether labor or parts should be taxed, or both.
- No longer will you need to manage a zip code lookup table for taxes.
- United States and Canada support.
- Tax rates are maintained and up to date with current regulations all in real-time.
- This service is provided with no additional cost to you.
